5 RISK MANAGEMENT STRATEGIES AND TECHNIQUES

5.1 For BOSWM Cash Fund

Our risk management strategy is to conduct fundamental analysis of economic, financial and social-political factors, both locally and globally, to ascertain the potential risk-reward of different asset classes. For BOSWM Cash Fund, money market instruments and cash deposits are screened by analysis of issuers' underlying business and fundamentals as well as the credit standing of licensed Financial Institutions by active monitoring of credit ratings assigned by the credit rating agencies (where applicable).

The Fund's portfolio risk is mitigated by diversifying across wide range of counterparties as well as across multiple placement tenures. Percentage holdings in cash placements are actively monitored and these percentages are raised or reduced from time to time depending on the risk-reward potential. Specific risk management strategies for the risks that the Fund is subject to can also be found on page 7 and 8.

In addition, the following investment procedures and internal controls are designed to control operational risk**:

- There is strict division of duties between asset placement, confirmation, settlement and valuation;
- There are rules on trading and preventing employees to act on insider information. The Legal & Compliance department will monitor compliance and enforce disciplinary actions on any employee who has breached the code of conduct and compliance manual;
- There is daily computation of the Fund's NAV and independent verification and reconciliation;
- There are procedures for senior management, Trustee, Investment Committee and the Board of Directors to be informed promptly, to investigate and to ensure timely and appropriate rectification of any deviation and non-compliance that may arise; and
- There are limits to the placement maintained at licensed financial institutions to manage credit risk exposure.
- There are limits and criteria set on credit rating of money market instruments.

*** Operational risk refers to the internal risk associated with inadequate systems and controls.*

5.2 Bases of Valuation of Investments

Pursuant to the SC Guidelines, all assets of the Fund should be valued in a fair and accurate manner at all times. The Fund is generally valued in accordance with the Fund's asset classes:

- Cash or deposits placed with banks and other financial institutions and bank bills are valued on a daily basis by reference to their nominal values and the accrued interest/profit thereon.
- Money market instruments are valued each day by reference to their nominal values and the accrued interest, if any. Commercial papers are valued on a daily basis based on fair value prices quoted by a bond pricing agency (BPA) registered with SC.

6 RISK FACTORS

This section describes the risk factors that we identified are relevant for you to consider before investing in the Fund. The list of risk factors identified is by no means exhaustive. You should be aware that investing in the Fund may expose you to other risk factors from time to time. If in doubt, please consult professional advisers for better understanding of the risk factors.

6.1 General Risks

The following are the general risks for the Fund:

- **Credit and default risk** – Credit risk relates to the creditworthiness of the Financial Institutions of the money market instruments and deposit and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the Financial Institutions may impact the value as well as liquidity of the money market instruments and deposit placements. In the case of rated money market instruments, this may lead to a credit downgrade which will in turn adversely affect the value of the money market instruments. This could adversely affect the value of the fund. Default risk relates to the risk that the Financial Institutions either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the money market instruments. This could adversely affect the value of a fund.
- **Inflation risk** – This is the risk that investors' investment in a fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.
- **Interest rate risk** – This risk refers to the effect of interest rate changes on the market value of a money market portfolio. In the event of rising interest rates, prices of money market instruments will generally decrease and vice versa.
- **Liquidity risk** – This risk occurs during periods of unexpected high redemption by unit holders. If a fund needs to sell a relatively large amount of fund's existing underlyings, the act itself may depress the value of the Fund due to potential interest loss. As such, a fund is managed in such a way that maturities of cash deposits and money market instruments are adequately diversified across a broad range of tenures to meet potential redemptions without having to resort to early termination of placements that could potentially result in interest losses.
- **Manager's risk** – This risk refers to the day-to-day management of a fund by the unit trust fund manager which will impact the performance of the fund. For example, investment decisions undertaken by the unit trust fund manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.
- **Market risk** – This risk refers to the potential losses in the investment of the fund which will impact the fund's NAV, due adverse changes in economic development, political situation and/or other factors.
- **Non-compliance risk** – This risk refers to the risk that the unit trust fund manager does not adhere to legislation or guidelines that govern the investment management and operations of a fund or to a fund's investment mandate stated in the deed. This risk also concerns non-compliance with internal operating policies and the unit trust fund manager acting fraudulently or in a manner that is unfair to unitholders. This risk could result in disruptions to the operations of a fund and potentially lead to reduced income/gains or even losses to unitholders. The unit trust fund manager has in place stringent internal policies and procedures to ensure a fund is managed to the full benefit of investors and in compliance with the relevant fund regulations or guidelines. There is also separation of fund management duties such as investment decision making, execution of trades and accounting for/valuation of such trades. A compliance team is in place to monitor such operational and investment activities.

6.2 Specific Risks

The Fund is subject to the following specific risk:

Fund	Specific Risk
<p>BOSWM Cash Fund</p>	<p>Interest rate risk – This risk refers to the effect of interest rate changes on the market value of a money market portfolio. In the event of rising interest rates, prices of money market instruments will generally decrease and vice versa.</p> <p>The interest rate is a general indicator that will have an impact on the management of funds regardless of whether it is an Islamic unit trust fund or otherwise.</p> <p><i>Note: For the avoidance of doubt, the Fund doesn't seek to invest in fixed income securities.</i></p> <hr/> <p>Reinvestment risk – This risk refers to the effect of interest rate changes on investment income of the money market portfolio. In the event of declining interest rates, investment income will generally decrease due to lower reinvestment rate. This risk will be mitigated via maturity management of the cash and/or money market portfolio.</p> <ul style="list-style-type: none"> • The Fund will look to increase its average maturity of its deposit placements in an environment of falling interest rates. Longer average maturity decreases the frequency at which cash becomes available and needs to be reinvested.

The NAV per unit may be rounded to four decimal places. An incorrect valuation and/or pricing of a Fund shall be considered of minimal significance if the error involves a discrepancy of less than 0.5% of the NAV per unit of the Fund. Any pricing discrepancy of 0.5% or more of the NAV per unit of a Fund will be rectified as stated in the Fund's deed unless the total impact of the discrepancy on an individual account is less than RM10.00 as the transaction cost may be more than the amount adjusted.

If we receive your duly completed and accepted original application form to purchase/redeem/switch any Fund(s) by the cut-off time of 4.00 p.m. on any business day, the NAV per unit will be calculated based on the NAV per unit at the end of that business day. Any application form (original copy) received after this cut-off time will be considered as being transacted on the next business day and will be subjected to the NAV per unit of the Fund on the next business day.

Fund	Cash Plan	EPF Plan
BOSWM Cash Fund	Lump Sum Cash RM100 minimum investment. Effective from 1 January 2022, the minimum additional investment will be revised from RM 100 to RM 200,000.	EPF Plan is only available for EPF approved funds. 8.4 Purchase

The Price of a Unit

The price of each unit is calculated based on the NAV per unit of a Fund as at the next valuation point after the original application form and payment is received by the Manager ("forward pricing").

Example:

NAV per unit	RM1.000
Sales charge	0.0% of NAV per unit

Assuming the NAV per unit on a business day is RM1.0000 and if you make a payment of RM1,000,000.00, the amount to be invested in a Fund, and the sales charge to be paid by you are calculated as follows:

Total amount invested	=	RM1,000,000.00
Total sales charge (0.00%) incurred (0.00% x RM1,000,000.00)	=	RM0.00
Total amount to be paid by you	=	<u>RM1,000,000.00</u>
Units issued to you	=	RM1,000,000.00/RM1.0000 = 1,000,000.00 units

Note to the example:

The above example shows that the sales charge is calculated separately from the amount invested, whereas the sales charge imposed by a Fund are deducted upfront from the total amount paid by the investors.

There are fees and charges involved and investors are advised to consider them before investing in the Fund. All fees and charges payable to the Manager and/or the Trustees are subject to any applicable taxes and/or duties as may be imposed by the government or other authorities from time to time.

Purchase of Unit Procedure

Your purchase application for units and payment (cleared funds) must reach our head office by 4.00 p.m. on any business day. Any duly completed and accepted original application form and payment received after this cut-off time is considered as being transacted on the next business day. In addition to the submission of the above form, you may be required to forward to us additional documents to authenticate your identification when transacting units of a Fund. We may for any reason at any time, waive existing procedures, and/or prescribe applications for units in any other form or manner whether for all/any particular investor, at our discretion.

Dear Sirs

Taxation of the unit trust fund and unit holders

This letter has been prepared for inclusion in this Prospectus in connection with the offer of units in the unit trust known as BOSWM Cash Fund (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

Taxation of the Fund

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where

- A is the total of the permitted expenses incurred for that basis period;
- B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and
- C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest**
 - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
 - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
 - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
 - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
 - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
 - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
 - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.
- **Discount**
Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

Foreign sourced income

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61 (1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

⁶ The above excludes a business trust and a company which is established for the issuance of asset-backed securities in a securitization transaction approved by the Securities Commission.

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders/ dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits – new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions – unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

We hereby confirm that, as at the date of this letter, the statements made in this letter correctly reflect our understanding of the tax position under current Malaysian tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. We have not been retained (unless specifically instructed hereafter), nor are we obligated to monitor or update the statements for future conditions that may affect these statements.

The statements made in this letter are not intended to be a complete analysis of the tax consequences relating to an investor in the Fund. As the particular circumstances of each investor may differ, we recommend that investors obtain independent advice on the tax issues associated with an investment in the Fund.

Yours faithfully
