INVESTMENT OBJECTIVE

Any material changes to the Fund's objective would require unitholders' approval.

□ *Income is in reference to the Fund's distribution, which will be in the form of cash or units. Please refer to page 13 for further details on distribution policy and reinvestment policy.*

BENEFITS

By investing in this Fund, you will be able to reap the following benefits:

- Capital preservation*; and
- The asset allocation of the Fund will primarily comprise of Islamic deposits, which are low risk and less volatile in nature as compared to an Islamic equity fund which invests primarily in Shariah-compliant stocks.

INVESTMENT POLICY AND STRATEGY

The investment policy and strategy is to invest in Islamic cash deposits and low risk Islamic money market instruments for capital preservation* and to accommodate the liquidity requirements of its unit holders.

Note: * The Fund is neither a capital guaranteed fund nor a capital protected fund.

Asset Allocation

The Fund will invest at least 90% of its NAV in placements of Islamic cash deposits with licensed financial institutions and Islamic money market instruments with maturities of up to one year (365 days)*. This asset allocation may be reviewed from time to time depending on the Fund's liquidity requirements and to optimise income to the Fund.

* The Fund may also invest up to 10% of its NAV in placements of Islamic cash deposits with licensed financial institutions and Islamic money market instruments that are to mature beyond one year (365 days) but no longer than two years (732 days).

The Fund's investments in Islamic money market instruments will bear a short-term rating of P2 by RAM Rating Services Berhad (RAM) or by an equivalent rating agency. Upon the event of a downgrade of credit rating to below P2, the Manager will rectify the situation which may involve the nearest opportunity for disposal of the instrument or a scheme of arrangement with the Issuer of the instrument.

Performance Benchmark

The benchmark for the Fund is Maybank Islamic Overnight Deposit rate. It is widely used and available from www.maybank2u.com.my on a daily basis. It will also be published as a comparison against the Fund's total return at least on a monthly basis in our publications and on our website.

The benchmark Maybank Islamic Overnight Deposit rate has been adopted for the Fund based on the following rationales:

- It provides a more accurate base of comparison against the Fund's performance; and
 - Overnight rates provide realistic correlation as to changes in short-term deposit rates whenever there is a change in the Overnight Policy Rate[^].
- [^] The Overnight Policy Rate (OPR) will be the indicator of the monetary policy stance. The OPR will have a dual role – as a signalling device to indicate the monetary policy stance and as a target rate for the day-to-day liquidity operations of the central bank. Any change in the monetary policy stance would be signalled by a change in the OPR. It will serve as the primary reference rate in determining other market rates.

Investment in this Fund is not the same as placement in a deposit with a financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in this Fund.

PERMITTED INVESTMENTS

Unless otherwise prohibited by the relevant authorities or any relevant law and provided always that there are no inconsistencies with the objective of the Fund, the Fund is permitted to invest in the following:

Concentration Of Investments

The Fund's investments in Islamic money market instruments must not exceed 20% of the instruments issued by any single issuer or any other limit set by Securities Commission.

RISK MANAGEMENT STRATEGIES AND TECHNIQUES

Our risk management strategy is to conduct fundamental analysis of economic, political and social factors, on a local and global basis, to evaluate their likely implications on the local interest rate environment.

The above interest rate is a general economic indicator that will have an impact on the management of the Fund regardless whether it is an Islamic unit trust Fund or otherwise. It does not in anyway suggest that the Fund will invest in conventional financial instruments.

For the Fund, procedures will be made to ensure that all investments are fully in compliance with Shariah requirements. Risk is controlled by diversification across licensed financial institutions and diversification of maturity profiles across placement of Islamic cash deposits and Islamic money market instruments.

The following investment procedures and internal controls are designed to control operational risk* for the Fund:

- There is strict division of duties between placement of Islamic cash deposits and/or Islamic money market instruments, confirmation, settlement and valuation;
- There are rules on trading and preventing employees to act on insider information. The Legal & Compliance department will monitor compliance and enforce disciplinary actions on any employee who has breached the code of conduct and compliance manual;
- There is daily computation of the Fund's NAV and independent verification and reconciliation;
- There are procedures for senior management, Trustee, Investment Committee and the Board of Directors to be informed promptly, to investigate and to ensure timely and appropriate rectification of any deviation and non-compliance that may arise; and
- There are limits to the placement maintained at licensed financial institutions to manage credit risk exposure.

* Operational risk refers to the internal risk associated with inadequate systems and controls.

BASES OF VALUATION OF INVESTMENTS

All assets of the Fund will be valued in a fair and accurate manner at all times. The valuation bases for the permitted investments of the Fund are as below:

Islamic money market Instrument	Investments in Islamic money market instruments such as Islamic accepted bills, Bank Negara monetary notes-i, Islamic negotiable instruments are valued each day by reference to the value of such investments and the profits accrued thereon for the relevant period. As for Investments in Islamic commercial papers, valuation will be performed by reference to the fair value prices quoted by a Bond Price Agency Malaysia (BPA) registered with the SC.
Islamic deposit	Amount held in Islamic deposit placed with Islamic financial institutions are valued by reference to the value of such placement and profit accrued thereon for the relevant period.

4. RISK FACTORS

GENERAL RISKS

The following are the general risks for the Fund:

- **Reinvestment risk** – This is a risk that future proceeds (profit and/or capital) are reinvested at a lower profit rate. Reinvestment risk is especially evident during periods of falling rates where the profit payments (from existing placements) are reinvested at less than the profit rate at the time of placement. To mitigate this risk, the Manager would seek to place Islamic cash deposits with licensed financial institutions offering competitive profit rates.
- **Inflation or purchasing power risk** – This risk refers to the effect of inflation or loss of purchasing power on the value of investment returns and the worth of the investment itself. Investors' returns from the Fund may not keep pace with inflation and hence reduce their purchasing power.
- **Credit risk** – Credit risk relates to the creditworthiness of the issuers of the Islamic money market instruments and Islamic deposit and their expected ability to make timely payment of profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the Islamic money market instruments and Islamic deposit placement. In the case of rated Islamic money market instruments, this may lead to a credit downgrade which will in turn adversely affect the value of the Islamic money market instruments. This could adversely affect the value of the fund.

SPECIFIC RISK

The following are the specific risks for the Fund:

- **Early termination of Islamic cash deposits risk** – This is the risk of the Fund having to terminate/withdraw from placements in Islamic cash deposits before the maturity date of the respective placements – due to redemptions from the Fund. As a result of the premature termination of placements, there will be a loss of a percentage or even all of the profits accumulated during the period of holding of the Islamic cash deposits, resulting in loss of income to the Fund. To mitigate this risk, the Manager anticipates the potential percentage of the Fund that may experience redemptions and allocates maturities accordingly. For example, the Manager may ensure that there are sufficient tranches of Islamic cash deposits maturing weekly to meet any potential redemptions from the Fund.

Note: Please refer to the Cleansing Process for the Fund on page 24 for details.

Investment in this Fund is not the same as placement in a deposit with a financial institution.

There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in this Fund.

The Manager exercises diligence in minimising the above risks to the Fund. However, it is not always possible to cover all investment risks in spite of best efforts as financial markets can be highly unpredictable. Investors are encouraged to consult their advisers such as financial/tax consultants, lawyers or bankers for a further understanding of these risks.

6. TRANSACTION INFORMATION

PRICING CALCULATION

The buying and selling price of units is quoted based on a single price i.e. the NAV per unit of the Fund. All other transactions charges, if any, will be expressed separately from the price of a unit.

Valuation Of NAV

The valuation of NAV for the Fund will be conducted at the end of each business day. The daily unit price of the Fund will be published on the next business day.

Valuation Of Units

Valuation of units is based on the NAV of the Fund and is **calculated at the end of every business day**. The NAV per unit of the Fund is determined by dividing the Fund's assets less its liabilities by the number of units in circulation. After the offer period, the price of a unit of the Fund is calculated based on the NAV per unit of the Fund as at the next valuation point after we receive the original application ("forward pricing"). The NAV per unit may be rounded to four decimal places. An incorrect valuation and/or pricing of the Fund shall be considered of minimal significance if the error involves a discrepancy of less than 0.5% of the NAV per unit of the Fund. Any pricing discrepancy of 0.5% or more of the NAV per unit of the Fund will be rectified as stated in the Fund's deed unless the total impact of the discrepancy on an individual account is less than RM10.00 as the transaction cost may be more than the amount adjusted.

If we receive your duly completed original application form and payment (cleared funds) to purchase the Fund **by the cut-off time of 3:00 p.m. on any business day**, the NAV per unit will be calculated based on the NAV per unit at the end of that business day. Any application form (original copy) received after this cut-off time will be considered as being transacted on the next business day and will be subjected to the NAV per unit of the Fund on the next business day.

Example:

NAV per unit RM1.0027

Sales charge Nil

Assuming the NAV per unit on a business day is RM1.0027 and if you make a payment of RM1,000,000, the amount to be invested in the Fund and, the sales charge to be paid by you are calculated as follows:

Total amount invested = RM1,000,000.00

Total sales charge (0.00%) incurred = RM0.00
(0.00% x RM1,000,000.00)

Total amount to be paid by you = RM1,000,000.00

Units issued to you = $RM1,000,000.00 / RM1.0027 = 997,307.27$ units

- 1) Real Time Electronic Transfer of Funds and Securities (RENTAS) experiencing problems;
- 2) Inaccurate details e.g. identity card number, account number, etc. furnished by you; and
- 3) Situations beyond the control of the Manager or the Trustee.

There is no minimum redemption amount for the Fund. For partial redemption, the minimum balance to be maintained in your unit trust account must be 500,000 units or such sum as may be decided by the Trustee and the Manager from time to time. If there is intention to increase the minimum units or sum, the Manager will inform the existing unit holders of the change via a written notice and its effective date of the change must not be less than 14 days from the date of the notice. Additionally, the Manager will notify unit holders of the change via an interim or annual report, whichever is earlier.

If units in your account are less than the minimum holding after the redemption application is made, all units in your account will be redeemed automatically.

SWITCHING FACILITY

To carry out a switching transaction, you may send your instruction through our designated transaction form or by issuing a formal letter of such request to the Manager's office by 3:00 p.m. on any business day.

There are no restrictions on the number of switching transactions that you may carry out; however, all switching transactions are subject to the following conditions:

- You may switch your investments into all other Funds managed by the Manager except for the wholesale funds;
- The Funds that you intend to switch into must have been in existence for at least three months from the launch dates of those Funds;
- The minimum number of units to be switched is 1,000 units and the value of units switched must meet the minimum investment amount of the switch-in Funds, whichever is higher; and
- The minimum number of units required to be held in the switch-out Fund is 500,000 units or such sum as may be decided by the Manager from time to time for a partial switch.

Switching will be carried out at the prevailing NAV per unit of the fund to be switched from and the fund to be switched into on a business day, when we receive the switching request by 3:00 p.m. on any business day (subject to availability and terms of the fund to be switched into).

Should the sales charge of a fund to be switched into is higher than the sales charge imposed on a fund to be switched from, then the difference in the sales charge between the two (2) funds shall be borne by you. There will be no sales charge imposed if the fund to be switched into has a lower sales charge than the fund you are switching out from.

If you have been imposed the highest sales charge in your switching transaction among our Funds, you are no longer required to bear any sales charge difference for subsequent switch transactions involving this specific batch of your investments.

You are not entitled to any refund for the sales charge paid on a fund being switched from, which exceeds that imposed on a fund to be switched into.

Fees and charges quoted are subject to any applicable taxes and/or duties as may be imposed by the government or other authorities from time to time.

SHARIAH INVESTMENT GUIDELINES, CLEANSING PROCESS AND ZAKAT FOR THE FUND

Shariah Investment Guidelines Adopted by BSSB

The following guidelines are adopted by BSSB in determining the Shariah status of investments of the Fund:

- The Fund must at all times and all stages of its operation comply with Shariah principles as resolved by the SACSC or in cases where no specific rulings are made by the SACSC, the decisions of the Shariah Adviser.
- The Fund must be raised and operated by the Manager, and finally redeemed by the investors on the basis of contracts which are acceptable in Shariah. The banking facilities and short-term money market instruments used for the Fund have to be Shariah-compliant.
- For Islamic money market instruments, they shall be based on the data readily available on Bank Negara Malaysia and/or SC websites.
- The decision of the Shariah Adviser shall be final.

Cleansing Process for the Fund

- **Wrong investment**

This refers to Shariah non-compliant investment made by the Manager. The said investment shall be disposed of/withdrawn with immediate effect, if possible; or otherwise within one (1) calendar month of knowing the status of the investment. In the event that the investment resulted in Shariah non-compliant income before or after the disposal of the instrument, it has to be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process (i.e. channeling of income from wrongful investment to *baitulmal* and/or approved charitable bodies) shall be carried out within two (2) calendar months from the said disposal/withdrawal date. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Manager.

- **Reclassification of Shariah Status of the Fund's Investments**

This refers to the instruments which were earlier classified as Shariah-compliant instruments but due to certain factors such as changes in the issuers' business direction and policy or failure to carry out proper Shariah contracts' transactions, which render the instruments Shariah non-compliant by the relevant authority. If this occurs, the Manager will take the necessary steps to dispose of such instruments.

If on the reclassification effective date, the value of the Shariah-non compliant instruments held exceeds or equal to the investment cost, the Fund which holds such Shariah non-compliant instruments must liquidate them. To determine the time frame to liquidate such securities, the Shariah Adviser advises that such reclassified Shariah non-compliant instruments should be disposed of within one (1) calendar month of reclassification.

Any income received up to the reclassification effective date and capital gains arising from the disposal of the said reclassified Shariah non-compliant instruments made on the reclassification effective date can be kept by the Fund.

However, any income received and excess capital gain derived from the disposal after the reclassification effective date at a price that is higher than the price on the reclassification effective date shall be channeled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser. The Shariah Adviser advises that this cleansing process should be carried out within two (2) calendar months from the above disposal date.

Zakat for the Fund

The Fund does not pay zakat on behalf of both Muslim individuals and Islamic legal entities who are investors of the Fund. Thus, investors are advised to pay zakat on their own.

THE SHARIAH ADVISER CONFIRMS THAT THE INVESTMENT PORTFOLIO OF THE FUND COMPRISES INSTRUMENTS THAT HAVE BEEN CLASSIFIED AS SHARIAH-COMPLIANT BY THE SACSC OR THE SHARIAH ADVISORY COUNCIL OF BANK NEGARA MALAYSIA ("SACBNM"). FOR INSTRUMENTS THAT ARE NOT CLASSIFIED AS SHARIAH-COMPLIANT BY THE SACSC OR THE SACBNM, THE SHARIAH ADVISER WILL REVIEW AND DETERMINE THE SHARIAH STATUS OF THE SAID INSTRUMENTS.

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The effect of this is that any gains or profits received (hereinafter referred to as "profits") and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$\frac{A \times B}{4C}$$

where **A** is the total of the permitted expenses incurred for that basis period;

B is gross income consisting of dividend¹, interest and rent chargeable to tax for that basis period; and

C is the aggregate of the gross income consisting of dividend¹ and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**
All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest (profits)**
 - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
 - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
 - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
 - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013²;
 - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002²;
 - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)³; and
 - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

¹ Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

² Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

³ Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

Foreign sourced income

Dividends, profits and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Gains from the realisation of investments

Pursuant to Section 61 (1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

Implementation of Sales and Service Tax ("SST")

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration.

Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units. The tax implications of each of the above categories are explained below:

1. **Taxable distributions**

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

2. **Non-taxable and exempt distributions**

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
<p>Malaysian tax resident:</p> <ul style="list-style-type: none"> • Individual and non-corporate unit holders (such as associations and societies) • Co-operatives⁴ • Trust bodies 	<ul style="list-style-type: none"> • Progressive tax rates ranging from 0% to 30% • Progressive tax rates ranging from 0% to 24% • 24%

Note 1:

Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

⁴ Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society—

- (a) in respect of a period of five years commencing from the date of registration of such co-operative society; and
- (b) thereafter where the members' funds [as defined in Paragraph 12(2)] of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit, is exempt from tax.

⁵ A company would not be eligible for the 17% tax rate on the first RM600,000 of chargeable income if:-

- (a) more than 50% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- (b) the company owns directly or indirectly more than 50% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;
- (c) more than 50% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

⁶ The above excludes a business trust and a company which is established for the issuance of asset-backed securities in a securitization transaction approved by the Securities Commission.

Gains from sale of units

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders / dealers in securities.

Unit splits and reinvestment of distributions

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits – new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions – unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.
